

Brakes – Disc brakes and their applications - General conditions for the certification of brake parts

Appendix I

Brake pads certified in international traffic

- Appendix I consists of 16 tables, one for each category of rolling stock or of service type;
- The tables:
 - Type Ra/b – Brake pads for high speed trains (up to 300 km/h – max. 13,8 MJ – organic or sintered pads),
 - Type S – Brake pads for passenger cars (up to 200 km/h, organic pads), and
 - Type T – Brake pads for passenger cars (up to 200 km/h, sintered pads)are inserted at the beginning;
- Table I 15 contains the brake pads which have received a provisional certification limited in time to enable them to undergo the in-service tests;
- Table I 16 contains the brake pads which UIC certification has expired, but which may still be used on particular vehicles.

Appendix I – Brake pads certified in international traffic

Appendix I.1.1a: Type 1.1a - Brake pads for high speed trains (up to 300 km/h; organic brake pads, max. 13.8 MJ)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
Bremskerl	BK 3000 (2)	no. R1a and no. S2.1	Company Bremskerl	01.04.2006 (4) 01.04.2016 (5)	31.03.2016 (4) 31.03.2026 (5)
Puran	BZP 625	no. R1a and no. S2.1	Company Puran	01.07.2014	30.06.2024

- (2) Bench tests on a grey cast-iron brake disc
 (4) First certification
 (5) Prolongation of certification

Appendix I.1.1b: Type 1.1b - Brake pads for high speed trains (up to 320 km/h sintered brake pads max. 17.8 MJ)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
CoFren	Frendo SP 201/320 SI (3)	no. R1b et no. S2.1	Company CoFren	01.02.2007 (4) 01.02.2017 (5)	31.01.2017 (4) 31.01.2027 (5)

- (3) Bench tests on a cast steel brake disc
 (4) First certification
 (5) Prolongation of certification

Appendix I.2: Brake pads for high-speed trains (up to 320/330 km/h sintered brake pads 17.8/32.85 MJ max)¹

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
CoFren	CFSP 150/T42	no. 5A and 5B (7th edition of Leaflet), as well as no. S2.1,	Wabtec	24.07.2019	02.07.2029
CoFren	T30S (4)	no. 5A (7th edition of Leaflet) and no. S2.1	Wabtec	01.07.2012	30.06.2022
Puran	PRF 1103 (6)	no. 5B (7th edition of Leaflet)	Puran	01.07.2016	30.06.2026
Puran	CRH5 (3)	no. 5A (7th edition of Leaflet) and no. S2.1	Puran	01.07.2017	30.06.2027
TYSJ	TS 399B (3)	no. 5B (7th edition of Leaflet)	Tianyshangjia	01.07.2017	30.06.2027
TYSJ	TS 588B (3)	no. 5B (7th edition of Leaflet)	Tianyshangjia	01.08.2020	31.07.2030

- (3) Bench test carried out on a disc brake of cast steel;
 (4) Bench test carried out on a non-ventilated disc brake of forged steel
 (5) Prolongation according to the generic test programme in the 8th edition of the Leaflet
 (6) Brake pad without dovetail fixation

¹ This category doesn't exist anymore in the 8th edition of UIC Leaflet 541-3. A re-certification of the pads can be made in category F1 of the 8th edition.

Appendix I.2: Type 4.2 - Brake pads for passenger coaches
 (up to 200 km/h; organic brake pads)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
CoFren	Frendo 2150 (2)	no. S1 and no. S2.1	Wabtec	01.02.2004 (4) 01.02.2014 (5)	31.01.2014 (4) 31.01.2024 (5)

Puran	BZP 625 (2) & (6)	no. S1 and no. S2.1	Company Puran	01.08.2015	31.07.2025

- (1) Bench tests on a grey cast-iron brake disc and a cast steel brake disc
- (2) Bench test on a grey cast-iron brake disc
- (3) Bench test carried out on a cast steel brake disc;
- (4) First certification
- (5) Prolongation of certification
- (6) Extension of certification
- (7) Production under license

Appendix I.3: Type 4.3 - Brake pads for passengers coaches
 (up to 200 km/h ; sintered brake pads)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
CoFren	FrenDo SP 134/201 (1)	no. T1 and no. T2	FS – Trenitalia Wabtec (5)	15.11.2005 (4)	31.07.2025 (5)
CoFren	CoFren SP 140FF/350 (1) & (2)	no. T1 and no. T2 no. S1 and no. S2.1	Wabtec	01.07.2017	30.06.2027

- (1) Bench test carried out on a brake disc of cast steel
- (2) Bench test carried out on a brake disc of grey cast-iron
- (4) First certification
- (5) Prolongation of certification

Appendix I 4 Brake pads for passengers coaches (extreme winter conditions)
 (up to 200 km/h ; organic brake pads)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
Frimatrail (license Frenoplast)	FR 20H.2 (2)	no. S3.1	Company Frimatrail	01.02.2019 (7)	31.01.2027 (7)

- (2) Bench test carried out on a brake disc of grey cast-iron
- (7) Production under license

Appendix I 5 *Reserved*

Appendix I 6 *Reserved*

Appendix I.7: Type A1 - Brake pads for wagons
 (up to 120 km/h; deceleration max. 0,88 m/s²; 6,3 MJ)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
Currently no certified brake pads					

Appendix I.8.1: Type B1 – Brake pads on discs for motor units
 (up to 160 km/h; wheel mounted discs; 7,9 MJ)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
Currently no certified brake pads					

Appendix I.8.2: Type B2 – Brake pads discs for motor units
 (up to 160 km/h; wheel mounted discs; 9,9 MJ)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
Currently no certified brake pads					

Appendix I.9.1: Type C1 – Brake pads discs for motor units
 (up to 200 km/h; wheel mounted discs; 12,3 MJ)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
Currently no certified brake pads					

Appendix I.9.2: Type C2 – Brake pads discs for motor units
 (up to 200 km/h; wheel mounted discs; 15,4 MJ)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
Currently no certified brake pads					

Appendix I.9.3: Type C3 – Brake pads discs for motor units
 (up to 200 km/h; wheel mounted discs; 18,5 MJ)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
Currently no certified brake pads					

Appendix I.10.1: Type D1 – Brake pads discs for motor units
 (up to 250 km/h; axle mounted discs; max. 15,7 MJ)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
Currently no certified brake pads					

Appendix I.10.2: Type D2 - Brake pads on discs for motor units
 (up to 250 km/h; wheel mounted discs, max. 25,3 MJ)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
Currently no certified brake pads					

Appendix I.11: Type E1 – Brake pads on discs for motor units
 (up to 300 km/h; wheel mounted discs; max. 27,8 MJ)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
Currently no certified brake pads					

Appendix I 12.1: Type F1 – Brake pads on discs for motor units
 (up to 350 km/h; axle mounted discs; max. 23,6 MJ)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
Currently no certified brake pads					

Appendix I.12.2: Type F2– Brake pads on discs for motor units
 (up to 350 km/h; axle mounted discs; max. 28,4 MJ)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
Currently no certified brake pads					

Appendix I.12.3: Type F3 – Brake pads on discs for motor units
 (up to 350 km/h; wheel mounted discs; max. 33,1 MJ)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
Currently no certified brake pads					

Appendix I.13: Type G1 – Brake pads on discs for motor units
 (up to 400 km/h; wheel mounted discs; max. 37 MJ)

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Request by	Date of certification	End of validity of the certification
Currently no certified brake pads					

Appendix I.14: Reserved

Appendix I.15 Preliminary approval – Brake pads which have undergone the actual test programmes with success and which may undergo in-service tests in view of obtaining the definitive approval

Manufacturer/ Name of product	Designation of type of brake pad	Test program(s) performed	Application	Date of preliminary approval	End of validity of the preliminary approval
Becorit	F 570* BMBS	no. D2	motor units up to 250 km/h	20.04.2017	13.02.2021
Bremskerl	BK 2100	no. S1.1 and no. S2.1	Coaches up to 200 km/h	16.07.2020	15.07.2022
