UIC SET 07, 04.06.2008
Advantages:

for railway operators ...

Identification and certification of products which, as well as meeting the safety requirements laid down in the TSIs and EN standards, have operational characteristics consistent with those set out in UIC leaflets and relating to:

- suitability for use
- maintainability
- life cycle costs (LCC)

for component manufacturers ...

Your products valued by railway operators will be awarded a quality label acknowledged by all UIC railways and beneficial to sales

"Approved and recommended by UIC"
