ECO SCORING

Assessing and supporting railways environmental efficiency

Eco Scoring can take different shapes, cover different scopes and realities, all of them being potentially relevant for the purposes of your organization.

UIC and the Sustainable Development unit have the pleasure to invite you to the launch of the project “Eco Scoring”. This event will take place on the 12th of November in Paris, from 9h30 a.m. to 2h30 p.m. at UIC Headquarter. This meeting, gathering a group of directors, will be the occasion to present solutions and share points of views on Eco Scoring in order to better understand what you’re looking for and decide how UIC can proceed in the future to work on this topic.

Monday, the 12th of November 2018

Meeting in
UIC headquarters
